

Environmental Policy

This is the policy of Forenteq Limited; To assess and reduce the environmental impact during the execution of our processes and quality system for the sourcing and supply of forensic science-based instrumentation and associated training & aftersales services including equipment servicing and calibration.

We are committed to providing a quality service in a manner that ensures a safe and healthy workplace for our employees and minimises our potential impact on the environment. We will operate in compliance with all relevant environmental legislation, this environmental policy and we will strive to use pollution prevention and environmental best practices in all we do.

We will:-

- integrate the consideration of environmental concerns and impacts into all of our decision making and activities;
- promote environmental awareness among our employees and encourage them to work in an environmentally responsible manner;
- train, educate and inform our employees about environmental issues that may affect their work,
- reduce waste through re-use and recycling and by purchasing recycled/recyclable products and materials where these alternatives are available, economical and suitable;
- promote efficient use of materials and resources throughout our facility including water, electricity, raw materials and other resources, particularly those that are non-renewable;
- take all reasonable steps to protect human health, biodiversity, ecosystems and the greater environment throughout the execution of our processes and services and throughout the product life cycle;
- aim to road freight equipment where ever possible rather than use air transportation which produces less CO2 emission / mile;
- reduce our impact via the implementation of our ESG & Circular Economy Strategy to monitor and enhance sustainability throughout our business and where possible impact the supply chain and product lifecycle;
- communicate our environmental commitment to suppliers/manufacturers, customers and the public (on request) and encourage them to support it;
- strive to continually improve our environmental performance and minimise the social impact and damage of activities by periodically reviewing our environmental policy in light of our current and planned future activities;

This policy is available for communication to staff, customers and interested parties on request.
